

EDITORIAL :

Gaelis is glad to introduce the Students Social Helps Guide. This guide gathers all social helps available in the academy of Lyon (Rhône, Loir and Ain). Be careful, it is not exhaustive, but it helps you discover every , mostly unknown, social helps any students can benefit from.

Gaelis, what is that ?

Gaelis (Solidary and Independent Grouping of Associations and Elected Students) is a non-profit association based on the 1901 law. Founded in 1993, its purpose is to regroup a large number of associations and elected students in Lyon.

It sets up different projects to fight against student precariousness and social isolation, to represent and defend students all year long.

Gaelis escorts you in your process and difficulties, in case of problems encountered with procedures or services you can address a mail to mesdroits@gaelis.fr .

To deal with student precariousness, Gaelis opened two AGORAE, social and solidarity groceries stores. To know more about it, go to page 18/23.
